OUR HISTORY

A VISION AND INNOVATION

ESD, founded in 1969, is driven by an unobstructed vision to design and manufacture revolutionary payment solutions. Early on, ESD developed the first mechanical coin slide to accept coins in a vertical position. Recognizing the superiority of the design, ESD expanded into the development of additional products – expanding into the vending and amusement industries. Since its formation, ESD has engineered products to accept coin currency of more than 60 countries worldwide.

ESD grew quickly into the electronic payment system market. In 1995, ESD acquired a small engineering company dedicated to the research and development of smart card payment systems for the laundry industry. This highly skilled team of computer scientists and electronic engineers designed the software and hardware equipment that would launch ESD into the forefront of an exciting new technology. In 1998 ESD moved its electronic products group into a larger facility in Atlanta, GA. Then, in 2002, its engineering and research division moved to its headquarters in Fort Washington, PA.

Later that year, ESD acquired a manufacturing company of electronic payment devices. With that acquisition, ESD secured its spot as the leader of the laundry industry's electronic payment system providers.

Today, as a major provider of mechanical and electronic payment systems to the multi-housing and vended laundry industries, ESD offers a comprehensive line of cutting-edge smart card and magnetic stripe card devices and systems.

ESD - WHERE COMMITMENT TO QUALITY AND SERVICE IS PARAMOUNT!

Our products and systems deliver unrivaled flexibility and benefits to owners, operators, and customers. Engineered and assembled entirely in house, ESD payment systems are backed by unrivaled customer care and technical support. ESD is one of the world's leading providers of vended laundry and amusement payment systems!

ESD ELECTRONIC PRODUCTS
OUT OF WARRANTY REPAIRS AND EXCHANGES

Effective January 1, 2027

ESD has a very generous warranty policy, but at the expiration of the warranty term ESD continues to provide excellent support for their customer's ESD products. ESD has two convenient options where customers can receive authorized repairs for products manufactured by ESD.

Warranty Smart Card –
Warranty VTM Readers and Wireless Readers

ESD
270 Commerce Drive
Fort Washington, PA 19034
215 628-0860

Non Warranty Smart Card Readers Contact

Progressive Payment Systems
714-385-0096
info@ppscard.com

1. The repair program includes
    a. Card Slides for Machines and VTM's
    b. VTM and Account Manager Computers
    c. Other miscellaneous VTM components including
        i. PC Control boards

2. Customers must secure an RGA (Returned Goods Authorization) from ESDbefore returning the failed part.
    a. RGA numbers can easily be obtained by accessing the ESD website at www.ESDcard.com. Go to the
    support tab on the home page and follow the prompts.

    b. When sending in the part(s) to be repaired, please include the following information.
        i. Name of sender
        ii. Address where part is to be returned
        iii. License number of location
        iv. Contact phone number

c. For identification purposes, please mark the RGA number on the outside and the inside of the box.

3. When the part is received, ESD technicians will examine the part, record their findings and create an estimate of repair cost.

4. If appropriate, a suggestion to replace with either a new part or an exchange component will be made.

5. When the part(s) are ready to be returned, the customer will be contacted with the final price and payment by credit card will be required.

6. If ESD elects to exchange certain components for a remanufactured assembly the old part will be surrendered and replaced with a remanufactured one.

7. If the customers desires to have a computer repaired, a conversation with a service technician is required and, if deemed appropriate, a job ticket number will be issued by the technician. This ticket number must be included when obtaining an RGA.
    a. Computers more than seven years old will not be accepted for repair.

8. All shipping charges to and from the ESD facility will be at the expense of the customer.

Payment Systems for the World

Although ESD makes every effort to ensure all part number information and pricing is accurate, ESD is neither responsible nor liable for any typographical errors that may occur. If any error in pricing exists, ESD reserves the right to cancel an order.

Please remember:

Before returning any part for warranty or repair, an RGA number must be obtained beforehand, which you can get on the ESD card website under the "Contact Us" tab or by calling ESD at 215-628-0860. The RGA number MUST be written on the outside and inside of the carton with the part being returned.

TO PURCHASE REMANUFACTURED COMPONENTS,
CUSTOMER MUST SUPPLY TRADED-IN EXACT UNIT
