OUR HISTORY

A VISION AND INNOVATION

ESD, founded in 1969, is driven by an unobstructed vision to design and manufacture revolutionary payment solutions. Early on, ESD developed the first mechanical coin slide to accept coins in a vertical position. Recognizing the superiority of the design, ESD expanded into the development of additional products – expanding into the vending and amusement industries. Since its formation, ESD has engineered products to accept coin currency of more than 60 countries worldwide.

ESD grew quickly into the electronic payment system market. In 1995, ESD acquired a small engineering company dedicated to the research and development of smart card payment systems for the laundry industry. This highly skilled team of computer scientists and electronic engineers designed the software and hardware equipment that would launch ESD into the forefront of an exciting new technology. In 1998 ESD moved its electronic products group into a larger facility in Atlanta, GA. Then, in 2002, its engineering and research division moved to its headquarters in Fort Washington, PA.

Later that year, ESD acquired a manufacturing company of electronic payment devices. With that acquisition, ESD secured its spot as the leader of the laundry industry's electronic payment system providers.

Today, as a major provider of mechanical and electronic payment systems to the multi-housing and vended laundry industries, ESD offers a comprehensive line of cutting-edge smart card and magnetic stripe card devices and systems.

ESD - WHERE COMMITMENT TO QUALITY AND SERVICE IS PARAMOUNT!

Our products and systems deliver unrivaled flexibility and benefits to owners, operators, and customers. Engineered and assembled entirely in house, ESD payment systems are backed by unrivaled customer care and technical support. ESD is one of the world's leading providers of vended laundry and amusement payment systems!

ESD PRODUCT LIMITED WARRANTY

I. What this Limited Warranty Covers and For How Long

ESD, Inc; 270 Commerce Drive, Fort Washington PA 19034 extends this limited warranty to the original owner (Purchaser), or by factory authorized warranty transfer to a new owner, of an ESD branded card system or product.

On all Cyberwash, Cyberlaundry and Link products; ESD, Inc will repair or replace, free of charge, any part which fails as a result of a defect in material or workmanship for a period of two (2) years (24 months) after the date shipped from ESD. A grace period of 90 days maximum will be allowed for the Purchaser to put the product into service.

On all SmartCard products; ESD, Inc. will repair or replace, free of charge, any part which fails as a result of a defect in material or workmanship for a period of One (1) year (12 months) after the date shipped from ESD. A grace period of 90 days maximum will be allowed for the Purchaser to put the product into service.

II. What this Limited Warranty Does Not Cover

- ESD will not provide replacement of any part which fails for reasons other than defective material or workmanship. This includes, but is not limited to, failure as a result of abuse, misuse, improper installation or maintenance and transportation damage.
- This warranty will not be applicable to parts which have been altered without the written consent of ESD if, in the sole judgment of ESD, the alteration adversely affected the stability or reliability of the Equipment or parts.
- This warranty will not be applicable if parts from a manufacturer other than ESD have been incorporated on or into the Equipment or if parts have been incorporated which have not been purchased from ESD.
- ESD is not responsible for labor, freight or transportation costs incurred in the replacement of any part.
- ESD is not responsible for any consequential damage resulting from any malfunction.
- ESD is not be responsible or liable for any part failure if such failure is due to an act of God, natural disaster, vandalism, intentional infliction of damage or dereliction.

III. How to Obtain Replacement Parts Under this Limited Warranty

For warranty service, Purchaser shall contact the Distributor from which the equipment or part was originally purchased or the nearest Distributor. In the event that the Purchaser is unable to make contact with a Distributor, the Purchaser shall contact ESD directly. Proof of purchase, model number, serial number and the defective part are required in order to obtain credit. ESD shall have the discretion to require the return of defective parts, however, no parts shall be returned to ESD without ESD's prior written authorization. The determination by ESD not to require the return of defective parts shall not be deemed to constitute a waiver of this warranty or of its right to enforce all of the terms of this warranty thereafter.

THE WARRANTY SET FORTH ABOVE IS A LIMITED WARRANTY AND IS THE SOLE AND EXCLUSIVE WARRANTY AND REMEDY AVAILABLE TO A PURCHASER. NO OTHER EXPRESS WARRANTIES ARE MADE. ALL IMPLIED WARRANTIES, INCLUDING BUT NOT LIMITED TO ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE ARE SPECIFICALLY EXCLUDED ALONG WITH ANY OTHER IMPLIED WARRANTIES ARISING BY OPERATION OF LAW, CUSTOM OR USAGE.

ESD WILL NOT BE LIABLE TO PURCHASER FOR SPECIAL, INDIRECT OR CONSEQUENTIAL DAMAGES INCURRED OR SUFFERED BY PURCHASER AS A RESULT OF THE USE OF THE PRODUCT, EQUIPMENT AND PARTS, WHETHER IN CONTRACT, TORT OR OTHERWISE, EVEN IF ESD HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH LOSS OR DAMAGES. ESD'S TOTAL LIABILITY WITH RESPECT TO THE PRODUCT, EQUIPMENT AND PARTS SHALL NOT EXCEED THE TOTAL PRICE PAID BY PURCHASER TO ESD. THIS LIMITED WARRANTY SHALL NOT BE EXTENDED OR MODIFIED EXCEPT BY A WRITTEN INSTRUMENT SIGNED BY ESD'S CEO.

Desktop VTM™ (DVTM) 11-100-100

FEATURES:

- Bright Easy to read LED display
- Adds value to smart cards manually
- Key card access for maximum security
- Track 3 unique employee key cards (used to turn on the unit)

Laundry Logic Management System
Basic Plus & Professional Edition Software

BASIC – One location, one user, one license #
PROFESSIONAL – Multiple locations multiple users (5 by default), multiple license #'s (each location can have a different license # assigned)

Laundry Logic 9 was designed to take ESD customers into the future. With support for all of ESD's current and legacy products you'll be set for yesterday, today and tomorrow. Create and change setups, audit machines, run reports and monitor usage. Added security options allow management to control access to features and settings.

FEATURES:

-Manage Users (Professional and Enhanced Versions Only)
-Set and manage security roles and password policies for all users
-Timeout feature for added security
-Screen and toolbar customization
-Full database backup
-User history tracking
-Create, manage, read/write and update CardSlide Unit and VTM setups for all ESD kits.
-Download, View and Manage CardSlide and VTM audits
-Generate System Reports for 'Machine List', Location List or Customer List for an individual location, multiple locations or all locations
-Generate Audit Reports for VTM Audit Income, CSU Audit Summary or Type II/Enhanced CSU Audit Summary
-All reports can be exported to CSV
-Multiple options for report time range include one day, one week, one month, one year or a custom range

System Requirements

Minimum System Requirements:
Windows 7, 32 or 64bit • Windows 8.1

Hard Drive requirements:
• Minimum Dedicated Hard Drive Space of 2.5GB
-Note that additional space may be required for customers with multiple locations that import a high volume of audit information

A dedicated minimum of 6 GB of space on the hard drive is strongly recommended.

You will need sufficient hard drive space to store your LLMS databases, which can grow significantly. By example: 500,000 transactions, 50,000 audits, 25,000 customer uses and 200 setups would require 120 MB of hard drive space.

Optional Equipment Required

ESD USB Laundry Logic Reader (LLR)

		List
11-200-005	Basic +	$1,895.00
11-200-006	Professional	$3,995.00

Data-Trac

Collection Card

- *Super Audit Card - CSU*
  This card is used to collect discreet and accountable data from 16 CardSlides on a single card. Data will then be downloaded and processed using the LLMS™ on a PC.

- *Audit Card - VTM™*
  This card is used to collect discreet and accountable data from one VTM™. Data will then be downloaded and processed using the LLMS™ on a PC.

- *Visual Audit Card - VTM™*
  This card provides visual collection data from the VTM™ which can be read on the VTM™ display on site.

- *Set Up Cards*
  These cards are programmed, using the LLMS™ on a PC, with an elective set of user defined parameters including vend price, special time discounts, class discounts, run time and top-off. Cards are then inserted into CardSlides of washers, dryers, soap machines and vending machines to complete the user friendly programming procedure.

- *Data Trac™*
  This card activates a unique card tracking function, which allows management to verify the activity of a customer's card and provide the operator an accurate accountability of all funds added to the customer's card.

A complete management card set is included with purchase of an ESD MoneyCard System. The card set contents depend upon the options purchased
